

Tender Package Evaluation

An appropriate procurement strategy must be based on complete Client Briefing, for an appropriate project team selection. Arated Building Consulting has the knowledge and understanding of the benefits peculiar to various procurement alternatives.

Our construction bid evaluation approach is methodical and yet practical, it includes the review of bidders to grasp their ability to provide accurate and reasonable;

- Market Focused Pricing
- Work Package Quantities
- Core Competence
- Innovation and Techniques
- Time based Capacity to Perform

In addition, our estimating expertise qualifies us to evaluate and analyze submitted bids for possible errors or omissions.

We recommend the best delivery option with a view to satisfy the owners and sponsors objectives and to balance stakeholder's interest. We have the ability to carry through the option that represents the most suitable allocation of risk between contracting parties.
